

Transport & Contracts Logistics Planner – Night shift

Location: Earls Colne/Ascot

Department: Operations

We are seeking an experienced and motivated Transport & Contracts Logistics Planner to join our Operations team. This role is responsible for planning and coordinating vehicles, drivers, and third-party logistics providers to ensure the successful delivery of bottled water and tanker services in line with customer requirements and service level agreements.

Key Responsibilities

- Plan and coordinate daily transport operations across utility and commercial work.
- Allocate vehicles and drivers in line with availability and drivers' hours regulations.
- Manage real-time changes to schedules during incidents and service disruptions.
- Coordinate third-party logistics providers and monitor performance against SLAs.
- Communicate effectively with drivers, clients, contractors, and internal teams.
- Support emergency and out-of-hours response activity when required.
- Ensure all operations comply with health, safety, and transport legislation.

About You

- Strong organisational and communication skills.
- Calm, decisive, and solutions-focused under pressure.
- Confident using IT systems including Microsoft Office and planning tools.

Desirable

- Experience in utilities, emergency response, or critical services environments.
- Experience working with third-party logistics providers.
- Experience in logistics/transport planning
