

15,000 Ltr Rigid Tankers

Our 15,000 litre Rigid Water Tankers are an ideal combination of capacity and manoeuvrability. Due to their 6 wheel chassis spec' they are also more than capable when required to work off-road on Construction sites and for Festivals and Events in greenfield areas.

Equipped with the same level of on-board equipment as our 10,000 litre tankers, these tankers can discharge fully in under 20 minutes. They also have the ability to carry large quantities of delivery hose, so pumping water at distances of over 100m from where the tanker parks isn't a problem!

Tanker specifications

Capacity (ltrs)	15,000
Vehicle weight (tonnes)	26
Length (m)	9.1
Width (m)	2.5
Height (m)	3.3
Turning circle (m)	20

2" Instantaneous/BSP.

Discharge time at 0m head (hydraulic pump) - 25 mins - up to 7 bar pump pressure.

Complies fully with UK water regulations.
